Mrs. Frink has left a kind and affectionate husband, ten lovely and tenction with that of Mr. Buchanan, and told him he der-hearted children, with a number of endeared relatives and friends to mourn over their irreparable loss; but their loss is, we fondly trust, her eternal gain. She was an exemplary member of the Baptist Church for the last 23 years, and it may be truly said of her, through all the meandering vicissitudes of life, that "she was an obedient daughter, an affectionate wife, a careful mother, and a Christian in whom there was no guile." As her disease grew near a crisis, it, like all other carcinomitous affections of the internal organs, beyond the reach of any theraputical agent, she longed for the time to arrive, that she might be conducted by angels on flowery beds of ease, from these low grounds f sin and sorrow, to those bright worlds above, where sighing and sorrow never comes, and parting is unknown. All those who witnessed her in her last illness, were most deepimpressed with the power religion has to disarm death of s sting and terror, and give consolation and hope in that rying hour. Then let me die the death of the righteous, trying hour. and let my last end be like his."

This Oil will be will try once again, for in Wood's Restorative there is no been so often imposed upon by Hair Tonics of different kinds. such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered For sale in Wilmington, N. C., by A. O. Bradley and W. completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out which it restored in greater perfection than it

ever had been before. It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to. It is the duty of every one to improve their personal ap pearance, though some may differ in regard to the ways of ing it : but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desir-

ed, and there are no means that should be left untried to ob-

tain such a consideration. Сосностом, Ohio, Nov. 17, 1856. O. J. WOOD & CO .- Gents: As I have been engaged in elling your Hair Restorative the last season for one of your local agents (B. M. Hackinson,) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced there is nothing equal to it in the United States, for restoring the hair. I have been engaged in the Drug business for several years, and have sold various preparations for the hair but have found nothing that restores the secretive organs or invigorates the scalp as well as yours, being fully convinced that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell.

WAYLAND, Mass., Feb. 5, 1857. PROF. O. J. WOOD & CO .- Gents: Having realized the good effects of your Hair Restorative, I wish to state, that nding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely. In the operation I have used nearly three bottles.

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING APRIL 29TH, 1858.

TURPENTINE .- The arrivals during the past week have been meagre, and scarcely sufficient for distillers' uses ;owing mainly to this fact the market has ruled steady at former quotations, as there are no shippers purchasing, consequently the demand is confined to parcels for distilling purposes. The receipts and sales for the week just ended \$1 20 a \$1 30. Corn lower, white 66; yellow 71.
